Co-organizers:

Program Promotion Panel on "Subduction zone earthquakes" in the Coordinating Committee of Earthquake and Volcanic Eruption Prediction Researches, ERI, the University of Tokyo

Workshop "Study on occurrence mechanism of slow earthquakes: Toward resolving the relationship between slow earthquakes and megathrust huge earthquakes based on unification of results from observation, experiments, theoretical study, and modelling" supported by ERI Joint Usage/Research Center Program

Workshop "Study on occurrence mechanism of slow earthquakes: Toward resolving the relationship between slow earthquakes and Nankai trough megathrust huge earthquakes based on unification of results from observation, experiments, theoretical study, and modelling" supported by DPRI Joint Usage/Research Center Program
