Dear International office of ERI,

Thank you. You have facilitated my visit to ERI in every way possible, allowing me to focus on my research here, and on experiencing the wonderful culture & geography of Japan. Your professionalism & efficiency are outstanding. In my experience, and I will miss them when I return to the UK. I am deeply grateful to you and to the ERI for enabling my visit.

The visit has been very productive and educational for me. My host, Takei-san, is among the most creative, dedicated, and brilliant scientists I have ever known. Working with her is a privilege & a challenge. I relish it.

Again, thank you, and best wishes,  
Richard Katz
