

TOKYO, August 1, 2012

Dear ERI friends,

It is quite fruitful, both academically and culturally, to have this 3-month visit to ERI. I am deeply impressed by the well-organized research activities and by the presence of international researchers. I benefit much from this unforgettable experience of the life in Japan. I am profoundly grateful to Ichihara-san for giving me this opportunity to visit ERI. It was a very inspired time.

Hope to visit again ERI in the near future
