

Tokyo, Nov. 22, 2012

Dear ERI colleagues and friends:

It is memorable for me to stay in ERI. I would thank Prof. Okubo for supplying me the opportunity to work here for three months.

Apart from academic activities, I also feel Japanese culture. Foods are very delicious too.

The same symbols for words (Japanese and Chinese) make me not be able to pronounce many place names, so I may get trouble when I go out to sightsee, which is also my funny experiences in Japan.

In all, I like ERI. I hope that ERI colleagues have the chances to visit our university.

Thanks!

Tinhai Yu.

University of Chinese Academy of Sciences
Beijing, China.
